

Berries, Pecan and Fruit Trees

Figs

All self-pollinate

1. Celeste One of the best for our area. Pink flesh, medium fruit. Closed eye. Very cold hardy.
2. LSU . Medium size, red to dark purple. Closed eye, cold hardy, and bears 3 crops.
3. Texas ever-bearing. Large, dark brown. Early crop in late June with larger figs. Later figs will be smaller, but bear off and all summer.

Apple

1. Dorset. Golden fruited, good for our area. Needs a pollinator.
2. Yellow Delicious. Good pollinator, yellow Late Sept.
3. Anna Reddish fruit.
4. Gala

Pear

1. Orient Needs a pollinator. Resistant to fire blight. One of best pears for Texas, large fruit. Attractive landscape tree.
2. Atlas
3. Moon glow
4. Warren
5. Tennessee

Plum

1. Morris
2. Santa Rosa Red skin, yellow flesh. Self-pollinating.
3. Methley Purple skin, red flesh. Self-pollinating and makes a good pollinator for others.
4. Bruce

Peach

Self-pollinating

1. Texstar
2. Redskin
3. Sam Houston
4. June Gold
5. Loring

Pecans

1. Choctaw
2. Pawnee
3. Desirable
